ANDROID DEVELOPER

Results-driven Android Developer with 2 years of experience building scalable, user-focused mobile apps. Skilled in Kotlin, MVVM architecture, Jetpack components, and Firebase. Proven ability to deliver high-quality features from concept to Play Store with clean, maintainable code.

WORK EXPERIENCE

Milespeak Technologies Pvt. Ltd Chennai - 02/2024 – Present

- Built Jus Ride, a social ride-planning & bicycle service app with thousands of Play Store users.
- Implemented ride booking, GPS tracking, service scheduling, and payment gateway integration.
- Added social networking features — profiles, followers, feeds, likes/comments.
- Integrated Firebase Cloud Messaging, Authentication, and Analytics for engagement tracking.
- Managed end-to-end Play Store release (signed AABs, listings, and updates) with zero crash rate.
- Collaborated with designers, QA, and backend teams in Agile sprints for rapid delivery.
- Explored Jetpack Compose via internal project — Attendance & Leave Management system.

EDUCATION & CERTIFICATION

Java Full Stack Development Certification

Q-spiders

Chennai - 08/2023 - 02/2024

Bachelor of Engineering - Computer Science and Engineering

Jeppiaar Engineering College

Chennai - 08/2019 - 06/2023

PROJECTS

JUSRIDE (Production App - Play Store)

Milespeak Technologies

A social ride-planning and bicycle service platform

- Architected modular MVVM app with Kotlin, XML-based UI, and RESTful API integration.
- Implemented deep linking, custom Firebase Analytics events, and CI/CD (Bitbucket) pipeline.
- Achieved stable production release with 4+ star rating and consistent user growth.

Live App: [\[JusRide on Play Store\]](#)

Attendance & Leave Management System (Training Project)

- Built using Jetpack Compose, Room Database, and Firebase for login, leave requests, and admin approval.
- Gained hands-on experience with state management, navigation, and Compose UI principles.

TECHNICAL SKILLS

- Languages : Kotlin, Java, XML
- Android Development: Data Binding, Jetpack Compose, LiveData, Material Design, MVVM Architecture, Navigation Component, ViewModel, XML Layouts
- API & Integration: Coroutines, GPS/Location Services, Payment Gateway Integration, RESTful APIs, Retrofit
- Firebase: Analytics, Authentication, Cloud Messaging (FCM)
- Tools & Platforms: Android Studio, Bitbucket, Git, MongoDB, Play Console, Postman
- Other: AAB/APK Signing, Agile Methodologies, CI/CD Pipelines, Version Control
